

QUANTUM ENERGY MEDICINE SEMINAR

Success April 2006 with 250 very satisfied participants

WELCOME TO AN INTERNATIONAL QUANTUM ENERGY MEDICINE SEMINAR The 5-6th of May 2007 in Stockholm, Sweden

This seminar will provide scientific information in biophysics, that is leading us to deeper understandings of life, disease and health.

At KTH, Kungliga Tekniska Högskolan www.kth.se (The Royal Institute of Technology) Valhallavägen 79, Main Campus, Hall F1, Lindstedsvägen 22, **Stockholm, Sweden, The 5-6th of May 2007**
The lectures start at 9.30 the 5th of may.

Main lecturer Lynne Mc Taggart, international bestseller author

www.livingthefield.com

Lynne McTaggart is author of *The Intention Experiment* (Simon and Schuster, January 2007) and bestselling book *The Field: The Quest for the Secret Force of the Universe*. She's best known as founder and editor (with her publisher husband Bryan Hubbard) of the UK and the US's leading publisher of newsletters and books on alternative health and spirituality, including the international newsletter *What Doctors Don't Tell You*.

The Field has been widely lauded by scientific and spiritual leaders thinkers alike as one of the most provoking books of its kind. "A magnificent job of presenting the hard evidence for what spiritual masters have been telling us for centuries." Laudatory plaudits have come from both the physics and the spiritual camps, and The Field has now been published in ten languages.

In her new book Lynne McTaggart has painstakingly sifted through all the science to find out about how intention works and how to use it. It offers some of the very latest scientific evidence about the power of your own thoughts and mind-blowing NEW evidence about the nature of reality.

In her talk, Lynne will also show her audience how to 'power up' to do the best intentions and how you can carry out your own intention 'experiments' in your daily life.

For more information about Lynne Mc Taggart see text in www.xede.fr seminar information [Read more about Lynne Mc Taggart](#).

Dr rer.nat. Hartmut Muller, Germany, Institut fur Raum-Energie Forschung

Researcher, physicist and philosopher, exams from the University in Leningrad. In 2004 he was granted the highest award of the Interacademic Union in Moscow – the Vernadski Medal first grade - for the discovery of Global Scaling. www.raum-energie-forschung.de

He will talk about his research in Gravitational theories and communication.

Also report from more than 300 Russian research teams research results, that living cells understand electromagnetic signals.

Revolution in Genetics, genetic information not contained in "junk"- DNA.

Findings from Russian scientists about global scaling time wave and quantum mechanics that have effects on our health.

For more information about the content in his lecture, read below.

Vacuum Resonance is one of the most important mechanisms, which regulates the harmonic organization of matter at all levels (scales) – from the sub-atomic particles to the galaxies. As this is a matter of harmonic oscillations, one speaks of the "Melody of Creation." The Proton is, by far, the most stable Vacuum Resonance. Its

life-time exceeds everything imaginable, exceeding one hundred thousand billion billion billion (10³²) years. No one knows the actual life-time of a Proton. No scientist could ever witness the decay of a Proton. The unusually high life-time of the Proton is the reason why over 99 percent of matter's mass consists of Nucleons (Protons and Neutrons). That is why Proton Resonances determine the course of all processes and the composition of all structures in the Universe. The objective of Global Scaling Theory is the Spectrum of Proton Resonances. As spectrum of natural oscillation processes, it is fractal, that means fragmentary, which is similarly itself, logarithmically scale-invariant. The Global Scaling Theory sees in logarithmic Scale Invariance of the Spectrum of Proton Resonances the origin of the Global Scaling phenomenon – the logarithmic Scale Invariance in the composition of matter. Proton Resonance is the basis of new efficient therapy and prophylaxis technologies in quantum medicine.

Dr James Oschman, Ph.D. Nature's Own Research Association, USA.

www.energyresearch.bizland.com

Last years very appreciated lecturer is back!

Dr J. Oschman, PH D, is a pioneer in energy medicine, internationally accepted researcher, cell biologist, biophysicist and author. He is one of the few academic scientists who has explored the scientific basis for complementary and quantum medicine.

His talk will be about Quantum and wave medicine: implications for health and longevity.

Breakthroughs in medical research and biomedical instrumentation are producing remarkable results for a wide range of diseases and disorders. The inflammation theory of disease and the living matrix concept provide a plausible scientific basis for the variety of medical problems that are resolved through quantum and wave medicine.

Shorter presentations from:

Dr Anneli Tarpila, Finland, PhD in pharmacology,

She is biologist, classical homeopath and LIFE therapist, and has been working in pharma clinical research for twenty years with publications in gastroenterological area and nutrition.

Topic of the speaker: Can the dilemma to produce scientifically proven studies in energy medicine be solved? How can the principles of scientific clinical studies be implemented into energy medicine practice?

Dr. Tarpila will speak about the current rules and regulations in clinical research and the possibilities to fulfil them in the area of energy medicine and some other alternative medicine areas.

Prof. Karl E. Arfors,

He is a former research director of Pharmacia Uppsala who initiated research of free radicals and antioxidants into reperfusion and inflammation. He is a specialist in cellular microcirculation and inflammation.

Now he will give us the latest information regarding vitamin D, as a multifactorial prehormone with influence on our genes.

Mark Daniel Abadi, Integrated Psychologist

Mark works as a complementary therapist, Quantum Scientist and Spiritual Teacher, he pushes forward boundaries of psychological, physiological and spiritual understanding of existence.

A holistic approach is now being explored, an integrated theory of everything interconnected in the cosmic field. He will present his vision and try to answer the question; How can we facilitate the paradigm shift towards a information medicine that will serve to balance the Human race?

Workshops and presentations of technologies, 17.30-19.30,

After the lectures, there will be possibilities to get information about different advanced quantum bio-energy technologies, electrical pollution protection etc.

Each work shop will start with 30 minutes presentation of the technology. After that will follow time for questions and answers and work with the systems.

L.I.F.E. systems, Anna Sandler

The new LIFE systems, medically approved class 2A from TUV in Germany, will be presented. Anna will talk about her experiences, among others in working with LIFE on animals who do not get placebo effects.

Millimeter-waves, Boris Aranowich,

Boris will present the millimeterwave technology. He has new information from a seminar in Moscow where he also lectured.

Global Scaling and Proto Light, Hartmut Muller

He will present a new rehabilitation device, with LEDs (Light Emitting Diodes) tuned to the proton resonance.

PIP (Polycontrast Interference Photography) Thornton Streeter,

With this method you can see the Energy Field alive, and the changes that appear by introducing different therapies or products. He will also show an extensive study of the LIFEsystem with the PIP.

Harmonizers, Thomas Aksnes

Thomas presents a new system that almost eliminates the harmful effects of radiation from mobile telephones, computers and electro smog. Also the negative effects from geopathic stress can be eliminated.

Biological Terrain Analyse, Yrjänä-Risto Laakso

The individual is being measured with physical parameters, among which are pH measurement from saliva, urine and blood. The result will tell about the need of quality food and minerals and antioxidants.

Presentation of the work shop leaders

Anna Sandler, therapist

Anna has education in acupuncture, chiropractic and Energy Medicine and has a long experience of therapy on animals and humans, with for example problems from muscles, joints and emotions.

www.biobalans.adaptiveinformation.se

Boris Aranovich, President MR AB

Boris is an internationally wellknown author and teacher, former headmaster at the university of Alternative Medicine in St. Petersburg.

www.mdrcenter.nu

Hartmut Muller Dr rer.nat. Germany, Institut fur Raum-Energie Forschung

Researcher, physicist and philosopher exams from the University in Leningrad. He was granted the highest award of the Interacademic Union in Moscow for the discovery of Global Scaling. www.raum-energie-forschung.de

www.raum-energie-forschung.de

Dr Thornton Streeter, DSc, The Centre for Bio field Sciences

He is an English researcher, who spent over 15 years specialising on researching, detecting and documenting the Human biophysical energy field www.biofieldsciences.com

Thomas Aksnes, President SCIO Norge as

Thomas is the pioneer of Quantum Medicine in Norway, he is behind the creation of more than 100 Quantum Medical Centres. He has also participated in the development of the Harmonizers.

www.harmonizer.no www.kvantemedisin.no

Yrjänä-Risto Laakso, engineer in physics

One of his main goals is to bring more spirituality in business and more business into spirituality.

He is a part of a group that will introduce more preventive healthcare into the world.

Welcome to the seminar, and at the same time take the opportunity to visit the beautiful capital of Sweden, Stockholm. www.stockholm.se

Register

Price for the 2 day seminar:

200 € or 1800 SEK, including lunches and fruit, tea/coffee

Please send your registration to xede@wanadoo.fr as soon as possible before 20th of April, and we will send you an invoice. You can also pay cash at the entrance.

Important that you give us a message that you will come so we can order lunch, coffee/tea.

For more information see www.xede.fr where you also later can see upgrades of the program and hotel information, book to good price before 4th of April.

Organizer:

XEDE International SARL

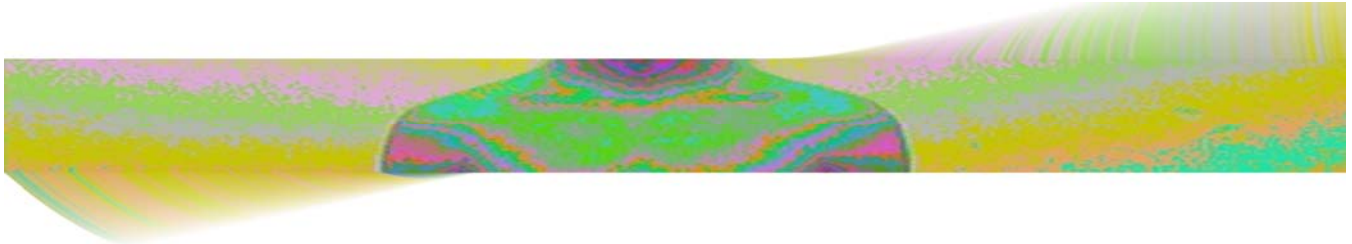

Mimmi och Bertil Weyde, in cooperation with prof. Karl-E. Arfors

Tel. +33(0) 607494058

HUMAN BIO ELECTRONICS

CAN IT BE EXPLAINED – SHOWN – USED?

YES!

WELCOME TO A QUANTUM ENERGY MEDICINE SEMINAR

This seminar will provide scientific information in biophysics, that is leading us to deeper understandings of life, disorder and disease.

At KTH, Kungliga Tekniska Högskolan www.kth.se (The Royal Institute of Technology)
Main Campus, Hall F1, Valhallavägen 79, **Stockholm, Sweden**
The 28-29th of April 2006, start 9.30 the 28th.

**Main lecturer Dr James Oschman, Ph.D. Nature's Own Research Association, USA.
For the first time in Sweden**

Dr J. Oschman is a pioneer in energy medicine, internationally accepted researcher, cell biologist, biophysicist and author. He is one of the few academic scientists who has explored the scientific basis for complementary and quantum medicine.

His work gives us a great deal of scientific information that provides logical explanation how different energy-based therapies and quantum medicine devices works. The basic field of his research is biophysics. This is the application to biological systems of the precise language and concepts of physics.

He has published 26 full-length scientific articles in academic scientific journals and 40 articles in complementary therapy journals. Combining this information with the latest developments in basic science and clinical medicine is leading us to deeper understandings of life, disease and disorder.

In his lectures, he will provide us with information about the body's energy field. During the past 40 years, scientific evidence has steadily accumulated that shows the human body does indeed produce various kinds of energy fields and that these fields have important roles in biology.

An important breakthrough at the cellular level is the discovery of the continuity between the cytoskeleton and nuclear matrix, inside the cell and the extra cellular matrix or connective tissue outside of the cell. It provides a basis for a whole-body communication system involved in the regulation of a variety of important processes, including the healing response. This whole system now called "the living matrix", is composed of semi conducting liquid crystals. Modern research into molecular nanoelectronics is helping us understand the sophisticated communication and information processing taking place within the living matrix. This new information is providing the basis for energy medicine, a variety of therapies and quantum technology.

www.energyresearch.bizland.com

Dr Thornton Streeter, DSc, The Center for Biofield Sciences

He is an English researcher, who spent over 15 years specialising on researching the Human biophysical energy field, with focus on detection and documentation of the anatomy and physiology of the human energy field.

His goal is to integrate modern medicine with holistic thoughts. He is a consultant to the Indian government, to establish this integration in the Indian teaching of medical doctors.

Dr Streeter will show fascinating material from his different methods of scientific investigations of energy fields in human and other living material.

www.biofieldsciences.com

Prof. Leif G. Salford, Neurosurgeon at Lund University Hospital in Lund, Sweden.

He will present his research on nerve cell damage in mammalian brain after exposure to microwaves from GSM mobile phones.

This is the largest human biological experiment ever. So has the voluntary exposure of the brain to microwaves from cell phones by one fourth of the world's population been called. The possible risks of radio frequency electromagnetic fields for the body, is a growing concern for society.

www.radfys.lu.se

Prof. Karl E. Arfors, former research director of Pharmacia Uppsala, initiated research of free radicals and antioxidants into reperfusion and inflammation. He is a specialist in cellular microcirculation and inflammation and developed a laboratory Experimental Medicine and institute in La Jolla California. He is today lecturing at Karolinska Institute in Stockholm about evidence based vitamins and free fatty acids (Ω 6 and Ω 3)

New experiences regarding atherosclerosis, cholesterol and inflammation will be shown, He will in his lecture, give information about the food our body likes, important information for preventing illness.

Prof. Arfors will also compare the classical reductionistic medical research with the holistic thinking, an important step in the coming paradigm change from Newton (where molecules are finding the receptor) to Quantum Physics where frequencies from molecules are directing and activating receptors and taking control in a system as Quantum Medicine.

Thomas Aksnes, President SCIO Norge as

Thomas is the pioneer of Quantum Medicine in Norway. He is experienced with therapy, theory and training using this technology.

He will explain how they combine the various Quantum Medical Equipments in the 62 specialised Quantum Medical Clinics in Norway

www.kvantemedisin.no

Boris Aranovich, MR AB

Researcher, author and teacher, former headmaster at the university of Alternative medicine in St. Petersburg. Boris will report from Energy Medicine research in Russia and the background to the millimetre wave communication technique.

www.mdrcenter.nu

Panel discussion

How Quantum Medicine can be used to help health care to improve health.

Workshop and training in different Quantum technologies and instruments will be offered Friday night.

Together with the seminar there will be an exhibition with different technologies and products.

Welcome to the seminar, and at the same time take the opportunity to visit the beautiful capital of Sweden, Stockholm. www.stockholm.se

Price for the 2 day seminar:

180 € or 1600 SEK, including lunches and fruit, tea/coffee

Register

Please send your registration to xede@wanadoo.fr as soon as possible before 10th of april, and we will send you an invoice. You can also pay cash at the entrance.
